

GET A FLU SHOT NOT THE FLU

YOUR ON-SITE
FLU CLINIC
PROVIDED BY:

CUSTOMPLUS FLU SEASON GOAL

Our goal is to make the immunizing process for your business and employees as easy and convenient as possible. That's why we come to you! With our traveling flu clinics, we hope to prevent the spread of the flu and to prevent life threatening illness associated with the flu. Each year thousands of people in the United States die from influenza, and many more are hospitalized. Getting your flu shot every year is the single best way to protect you and your loved ones from getting the flu. Do your part and stop the spread of the flu by getting a flu shot.

AT OUR ON-SITE FLU CLINICS WE PROVIDE

- QUADRIVALENT flu vaccine \$35 per shot
- TRIVALENT flu vaccine \$25 per shot
- Pneumonia vaccination also available upon request
- Administered by a licensed nurse or pharmacist

WHAT IS THE QUADRIVALENT FLU VACCINE?

The quadrivalent flu vaccine is designed to protect against four different flu viruses; two influenza A viruses and two influenza B viruses. For years, flu vaccines were designed to protect against three different flu viruses (trivalent). Adding another B virus to the vaccine aims to give broader protection against circulating flu viruses.

YOU CAN MISS UP TO 2.8 DAYS OF WORK

Did you know that employees sick with the flu miss up to 2.8 days of work per season? CustomPlus Pharmacy's experienced and licensed nurse will immunize your employees on site during work hours. This promotes compliance and improves vaccination rates which will decrease flu related attendance issues. Yearly vaccination is the best way to fight the flu!
